

Course title: Taster Course.

Course venue: 29 Boundary Close, Swindon, SN2 7TF

Contact: Barbara Mason 01793 826192 or BJM@glass-beads.co.uk

Not sure if glass beadmaking is for you? Come for a 3 hour session and try it out!

What will you do in the 3 hours?

You will familiarise yourself with the torch, with melting glass in the flame but - best of all - you will make several beads, including some with decorations! Health & safety issues will also be discussed.

How much does it cost?

Not a whole lot (see website for details) The price however does include a 'voucher' worth £25 off the cost of a 2 day beginners' course with me if you use it within 6 months of attending the taster.

Course runs from 10:00 till 13:00

Please note: This course is provided on the understanding that it is intended only to introduce the student to beadmaking. It is not suggested that the student will have enough knowledge about safety and the behaviour of hot glass and equipment to set up on their own following the course.
